

FOOD SAFETY AND QUALITY

Wonderful Pistachios & Almonds employs full-time, separate and dedicated Food Safety, Quality Assurance and Quality Control teams.

FOOD SAFETY

- Robust and industry-leading environmental swabbing program for food and non-food contact points.
- Intensive pest monitoring and prevention program. Dedicated pest control staff supported by a third-party contractor.
- All employees undergo extensive food safety training with mandatory compliance initiatives.
- Hand sanitizers, foot baths and other measures incorporated into all ready-to-eat areas.
- Master sanitization schedule including foaming, dry cleaning techniques and dry ice blasters throughout all facilities, supported by dedicated plant-specific teams.
- Outreach program invites university professors, industry food safety experts, technical consultants and microbiologists to review our food safety procedures.

QUALITY ASSURANCE

- All products undergo a test, hold and release program ensuring compliance with specifications.
- Upgraded, custom-designed Statistical Process Control system.
- Contracted with accredited ISO-17025 third-party laboratory with on-site testing facilities. Capability to adhere to U.S., E.U. and other international testing protocols.
- Pasteurization process approved by the Almond Board of California.
- 100% allergen separation between almonds and pistachios.
- All flavored products are tested weekly against sensory benchmarks.

QUALITY CONTROL

- All facilities are staffed with full-time and dedicated Quality Control personnel.
- Each manufacturing process is supervised by Quality Control personnel.

AUDIT QUALIFICATIONS

- Members of the American Council for Food Safety & Quality.
- USDA inspectors on-site.
- All facilities FSSC 22000 Certified.
